# Psychic Protection & The Art of Sanctuary

This course is for anyone interested in the principles and use of psychic and energy protection. This course shows how to detect and transform invasive energies and illustrates the different qualities, subtleties and the variations that can manifest in our lives. Some of the many techniques on this course involve specific protection techniques and devices and work with higher energies, natural energies, colour, sound, crystals, flowers, essences, prayer, affirmation and meditations.

These are blended into a gentle yet powerful process that will give us confidence dealing with these energies and maintaining our energetic integrity.
